# NAVIONICS®+ AND NAVIONICS PLATINUM+™ CARTOGRAPHY

NEW PRODUCT  
ANNOUNCEMENT

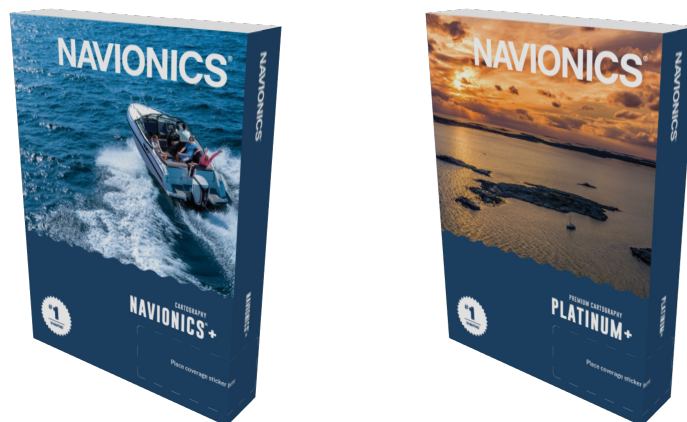

## PRODUCT OVERVIEW:

It's all about knowing your way on the water — with cartography you can trust. That's why boaters who rely on the Navionics brand have made it the world's No. 1 marine mapping.

The new Navionics+ and Platinum+ catalog features coverage areas that are aligned across standard and premium products, with combined coastal and lake content, making it easier to choose the right mapping solution for your needs. This all-in-one solution offers clear, reliable cartography for the widest range of chartplotter brands. An included one-year subscription provides access to daily updates, advanced features and so much more.

Navionics+ and Platinum+ cartography is available on microSD™ cards for easy installation on compatible marine devices.

The new Navionics cartography catalog described below completely replaces all legacy Navionics chartplotter cards. Please refer to the "Discontinued" dealer memo dated Jan. 19, 2022 for a complete list of discontinued items.

## NAVIONICS+

Get the world's No. 1 choice in marine mapping<sup>1</sup> — with the best, most up-to-date Navionics+ cartography on your compatible chartplotter<sup>2</sup>. For offshore or inland waters, this all-in-one solution offers detail-rich integrated mapping of coastal waters, lakes, rivers and more. Get SonarChart™ 1' (0.5 meter) HD bathymetry maps, advanced features<sup>3</sup> such as dock-to-dock route guidance technology<sup>4</sup>, live mapping and Plotter Sync to provide wireless access to daily updates. The Navionics Chart Installer software also ensures the freshest chart data every time out. Navionics dock-to-dock route guidance solutions give you a suggested path to follow through channels, inlets, marina entrances and more. Multiple shading options aid in shallow water navigation and make it easy to highlight a target depth range for the best fishing spots.

## NAVIONICS+ KEY FEATURES:

<b>INTEGRATED CONTENT</b>	Integrated Garmin and Navionics content provides exceptional coverage, clarity and detail in a familiar look and feel
<b>DAILY UPDATES</b>	Easy access to daily chart updates is available via the Navionics Chart Installer software or wirelessly via the Plotter Sync feature with the Navionics Boating app <sup>5</sup>
<b>DOCK-TO-DOCK ROUTE GUIDANCE</b>	Navionics advanced dock-to-dock route guidance technology <sup>4</sup> uses your boat settings, along with chart data and frequently traveled routes, to calculate a suggested path to follow
<b>COMMUNITY EDITS</b>	Download the Community Edits content layer to any Navionics card, and view this valuable, local information — contributed by Navionics Boating app users — on your compatible chartplotter
<b>UP TO 1' CONTOURS</b>	For improved fishing and navigation, SonarChart HD bathymetry maps display up to 1' (0.5 meter) contours, providing a more detailed depiction of bottom structure
<b>FISHING RANGE</b>	Fishing range advanced feature lets you highlight a user-defined target depth range
<b>SHALLOW WATER SHADING</b>	To aid in navigation, the shallow water shading advanced feature highlights depths up to a user-defined level
<b>REAL-TIME MAPPING</b>	SonarChart™ Live mapping feature allows boaters to create new personal 1' HD bathymetry maps that display in real time on the screens of their compatible plotters while navigating
<b>COVERAGE</b>	Worldwide coverage available
<b>ANNUAL RENEWABLE SUBSCRIPTION</b>	Available on microSD™ cards; cartography updates are available via annual renewable subscription (the first year of updates is included)

<sup>1</sup>Based on 2020 reported sales

<sup>2</sup>Navionics+ and Platinum+ cards are not compatible with Garmin chartplotters

<sup>3</sup>Compatibility with Navionics content and features varies depending on the chartplotter model

<sup>4</sup>Route guidance is for planning purposes only and does not replace safe navigation operations

<sup>5</sup>The Plotter Sync feature requires use of the Navionics Boating app on your compatible smart device with an active subscription of the same area

## NAVIONICS PLATINUM+

Get the world's No. 1 choice in marine mapping<sup>1</sup> — with the best, most up-to-date Navionics Platinum+ premium marine cartography on your compatible chartplotter<sup>2</sup>. For offshore or inland waters, this all-in-one solution offers detail-rich integrated mapping of coastal waters, lakes, rivers and more. Get 1' (0.5 meter) HD contours, premier-grade chart features<sup>3</sup>, including high-resolution relief shading, satellite imagery with SonarChart™ Shading overlay and 3D views, plus route guidance technology<sup>4</sup>, live mapping and Plotter Sync to provide wireless access to daily updates. The Navionics Chart Installer software also ensures access to the freshest chart data every time out. Navionics dock-to-dock route guidance solutions give you a suggested path to follow through channels, inlets, marina entrances and more, while multiple shading options aid in shallow water navigation and make it easy to highlight a target depth range for the best fishing spots.

## NAVIONICS PLATINUM+ KEY FEATURES:

<b>INTEGRATED CONTENT</b>	Integrated Garmin and Navionics content provides exceptional coverage, clarity and detail in a familiar look and feel
<b>DAILY UPDATES</b>	Easy access to daily chart updates is available via the Navionics Chart Installer software or wirelessly via the Plotter Sync feature with the Navionics Boating app <sup>5</sup>
<b>DOCK-TO-DOCK ROUTE GUIDANCE</b>	Navionics advanced dock-to-dock route guidance technology <sup>4</sup> uses your boat settings, along with chart data and frequently traveled routes, to calculate a suggested path to follow
<b>RELIEF SHADING</b>	High-resolution relief shading feature combines color and shadow to give you an easy-to-interpret, clearer view of bottom structure than contour lines alone
<b>SATELLITE IMAGERY WITH SONARCHART SHADING OVERLAY</b>	High-resolution satellite imagery combined with the SonarChart Shading overlay gives you a realistic view of your surroundings — ideal for entering unfamiliar harbors or ports
<b>SONAR IMAGERY</b>	Sonar imagery is a downloadable image overlay that shows bottom hardness in contrasting color so you can easily identify transition areas on select U.S. lakes
<b>AERIAL AND SURFACE PHOTOGRAPHY</b>	Aerial and surface photography of ports, marinas, bridges, docks, boat ramps, dams and navigational landmarks offers superior situational awareness
<b>3D VIEWS</b>	Unique 3D views provide additional perspective both above and below the water
<b>COMMUNITY EDITS</b>	Download the Community Edits content layer to any Navionics card, and view this valuable, local information — contributed by Navionics Boating app users — on your compatible chartplotter
<b>UP TO 1' CONTOURS</b>	For improved fishing and navigation, SonarChart HD bathymetry maps display up to 1' (0.5 meter) contours, providing a more detailed depiction of bottom structure
<b>FISHING RANGE</b>	Fishing range advanced feature lets you highlight a user-defined target depth range
<b>SHALLOW WATER SHADING</b>	To aid in navigation, the shallow water shading advanced feature highlights depths up to a user-defined level
<b>REAL-TIME MAPPING</b>	SonarChart Live mapping feature allows boaters to create new personal 1' HD bathymetry maps that display in real time on the screens of their compatible plotters while navigating
<b>COVERAGE</b>	Worldwide coverage available
<b>ANNUAL RENEWABLE SUBSCRIPTION</b>	Available on microSD™ cards; cartography updates are available via annual renewable subscription (the first year of updates is included)

<sup>1</sup>Based on 2020 reported sales

<sup>2</sup>Navionics+ and Platinum+ cards are not compatible with Garmin chartplotters

<sup>3</sup>Compatibility with Navionics content and features varies depending on the chartplotter model

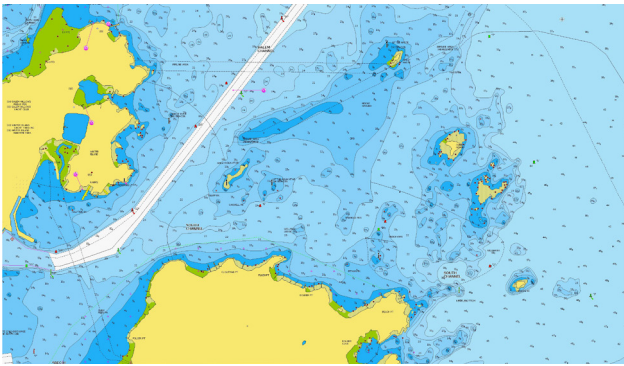

<sup>4</sup>Route guidance is for planning purposes only and does not replace safe navigation operations

<sup>5</sup>The Plotter Sync feature requires use of the Navionics Boating app on your compatible smart device with an active subscription of the same area

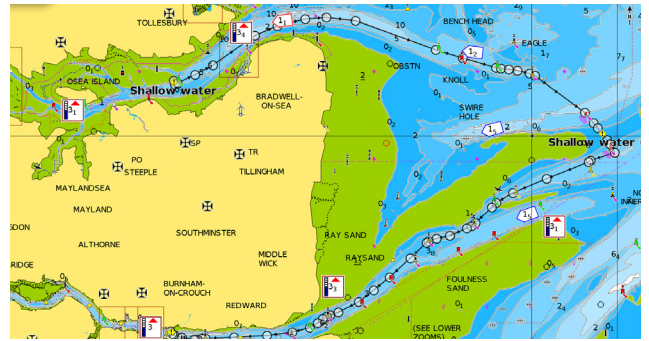

## DAILY UPDATES

Charts are constantly being enhanced with new and amended content — as many as 5,000 updates are made every day. Your one-year subscription includes access to daily chart updates via the Navionics Chart Installer or wirelessly with the Plotter Sync feature and the Navionics Boating app.

**PRICING:**

See the table on page 10 for the full price list.

**PACKAGING SPECIFICATIONS:**

<b>Box dimension (WxHxD):</b>	4.1"x5.8"x0.9" (105x146.5x22.5 mm)
<b>Box weight :</b>	0.13 lbs (60 g)

**DEALER RESOURCE CENTER (DRC):**

The Garmin Dealer Resource Center is the place for all the information and tools you need to successfully market your business and provide the best support for your customers.

Once you sign in, navigate to Navionics charts by selecting Products, then Product Details. From there, select the Browse Products tab, then choose Marine as the Market >Navionics Charts as the Category. You can also search directly by part number under the Product Search tab.

Product copy, images and this memo can be downloaded from the [Dealer Resource Center](#) as well.

**VIDEO:**

**COMPATIBILITY:**

See [Navionics compatibility guide](#) for more information.

**NAVIONICS BOATING APP:**

**Get Navionics charts on your smart-device for cruising, fishing, sailing, diving and all your activities on the water**

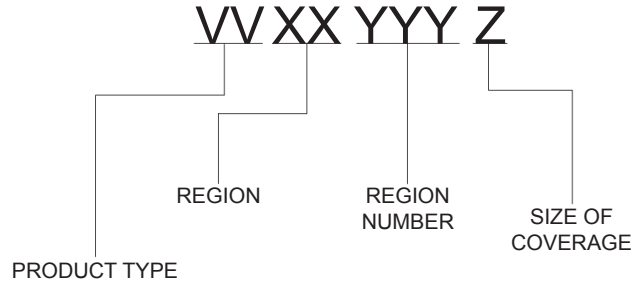

The Navionics Boating app offers much of the same content and features as Navionics cards, so it is a great way to demonstrate Navionics cartography. As a companion to the chartplotter and MFD experience, it adds incredibly useful and convenient functionality such as the GPX import/export function and Plotter Sync, which enables your customers to activate and update their charts right from the boat. The Boating app is available as a separate purchase for Apple® and Android™ devices and offers a free trial before subscribing. Note: Premium overlays cannot be downloaded or updated using Plotter Sync. [Click here for more information.](#)

### DEMO CARDS:

The DEMO cards contain all of the same navigational data as found on all Navionics Platinum+ accessory cards, including route guidance<sup>1</sup>. These accessory cards will not allow a chartplotter to obtain a GPS fix and, as such, cannot be used onboard vessels. They are designed for demonstration purposes only.

There is no charge for these DEMO cards. Orders will be limited to three DEMO cards per calendar year.

Demo cards for other regions of the world will be available later this year.
