

# Battery Fuel Gauge

## Onboard Electric Vehicle - Rectangle

**The most advanced and reliable battery fuel gauge available on the market is now **DeltaView® Link compatible!****

- Accurately Displays Battery Pack State/Charge Status
- With DVL - View Charge Status From Your Wireless Device
- TROUBLE FREE — **Easy Installation - Connect It and Forget It!**
- Advanced Microprocessor Constantly Evaluates Battery Pack State
- Durable, Water Resistant - Made in the USA and Built To Last

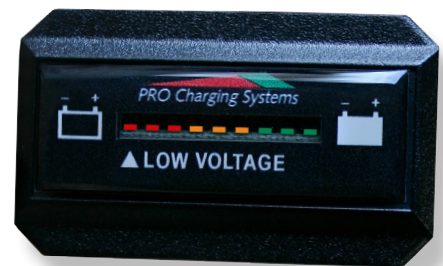

May be used in many types of applications including: **Golf Carts, Hunting Buggies Electric Utility Vehicles, LSVs, Aerial Lifts, Lift Trucks, Scrubbers, Lawn Equipment, Emergency Vehicles, Boats and More...**

The Pro Charging Systems (PCS) Battery Fuel Gauge (BFG) measures your battery's energy state with unparalleled precision and accurately displays the information with easy to read color coded LEDs. Our BFGs are DeltaView® Link (DVL) compatible which lets you to monitor the state of charge of your batteries right from your iOS™ or Android™ mobile device. Since our BFG uses intuitive technology, it fits and adapts to a wide range of applications. We take great pride in the performance, quality and versatility of our products backed by exceptional customer service.

### Features of the Battery Fuel Gauge:

- Nine LED array shows level of battery pack depletion
- LED array flashes while charging the battery pack
- Low Battery Voltage LED Indicator - Red indicator flashes warning and stays on when charging is required
- Status self-adjusts while charging is in progress
- DeltaView® Link App compatible to conveniently check the status of your battery pack from your wireless device
- Rugged PC ABS polymer case/water resistant design
- For use with Lead Acid (Wet Cell), AGM and Lithium batteries
- Installation is simple and requires a 1.065" x 1.58" cutout

Horizontal configuration is standard. See ordering instructions for vertical configuration.

**Ordering Instructions:** Horizontal configuration is standard. For vertical configuration add a "V" to the end of the model number. \*(ie. BFGWOVR12V)

Model	Configuration	Weight	Size	Cable	Sample Battery Configuration
BFGWOVR12V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	12V System - 1-12V Battery, 2-6V Batteries
BFGWOVR24V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	24V System - 2-12V Batteries, 4-6V Batteries
BFGWOVR36V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	36V System - 3-12V Batteries, 6-6V Batteries
BFGWOVR48V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	48V System - 4-12V Batteries, 8-6V Batteries, 6-8V Batteries
BFGWOVR64V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	64V System - 8-8V Batteries
BFGWOVR72V	Horizontal, *Add "V" for Vertical	8 oz.	2.1" x 1.25"	13.0'	72V System - 6-12V Batteries, 9-8V Batteries, 12-6V Batteries
