

DOCKSIDE SOLUTIONS

For many years our customers have experienced the benefits of our products on the boat side while still dealing with the same old issues created by the legacy Twist-type products on the dockside. Those days are changing with the introduction of SmartPlug's new dockside product offering. SmartPlug has applied our many years of experience and customer feedback to create a product line that allows you to upgrade most dockside pedestals and electrical supply systems with SmartPlug technology.

SAFE

- Over 27X Metal-To-Metal Contact
- Eliminates Overheating
- Reduced Fire Risk
- Increases Peace of Mind
- Asymmetric Sleeve Design Reduces Tension On Pins

SIMPLE

- Self-Aligning
- One Handed Operation
- Fail Safe – The Click Is The Trick!
- Easily Installed On Current Hole Pattern

SECURE

- Four Locking Features
- Strong, Stable Connection
- Pins Protected From Stress & Strain
- Stainless Steel Spring Loaded Side Levers
