

# MEGA **LIVE** IMAGING™ TARGETLOCK™

Optional  
Hand Remote

## LOCK ON. FISH ON.

Take aim with absolute confidence—and complete boat control. Unlike anything else on the water, MEGA Live Imaging™ TargetLock™ locks on to structure at the push of a button, even while your boat is moving or anchored using Minn Kota® Spot-Lock®. That means you'll never again have to choose between Live Sonar and Spot-Lock, two of fishing's most powerful technologies. And it's only from Humminbird.

**HUMMINBIRD**®

# STAYS FOCUSED ON FISH SO YOU CAN FOCUS ON FISHING.

You've never seen anything like MEGA Live Imaging™ TargetLock™, with the ability to lock in absolutely clear, real-time returns of structure, plus independent motor control. But you also get a full arsenal of other features designed to help you locate, stay on and catch more fish.

## TARGETLOCK

Lock your MEGA Live view onto fish-holding structure, whether your boat is moving or anchored using Minn Kota Spot-Lock.

## MEGA LIVE SWEEP

Get an automatic, constantly updated, 120° view of structure and fish—no matter where your trolling motor is pointed.

## MINN KOTA® STEER

Control both your trolling motor and the MEGA Live transducer at the same time using the foot pedal of your i-Pilot Link® Ultrex®.

## ONE-BOAT NETWORK BUTTON

This programmable softkey lets you activate MEGA Live Sweep Mode, Minn Kota Steer, or set a waypoint on your Humminbird® chart—with even more capabilities on the way.

## MEGA LIVE TARGETLOCK + MEGA 360 IMAGING

Find your angle of attack using MEGA 360 Imaging, then lock it in with MEGA Live Imaging TargetLock. Both technologies can be run simultaneously with full functionality using the optional dual mount bracket on your Minn Kota Ultrex Trolling motor.

## NOW SHOWING ON A SCREEN NEAR YOU.

See fish in real time—in no time. Attach the MEGA Live Imaging TargetLock accessory to your Ultrex trolling motor using one of our mounting brackets and connect to a compatible Humminbird fish finder. Simple as that.

All APEX™ models

All SOLIX® models
